

FOCUS III

FOCUS III is the third version of the model that has amazed our customers since its first launch. Its improved version, in 2022, brings to the fore 15 new automatic massage programs, available in 6 variants of special techniques. Family-oriented, Focus III focuses on the body's ability to recover quickly from overnight physical and mental consumption, the secret to today's success.

The unique experience of FOCUS III massage can create a pleasant addiction, with modern technology offering solutions for a wide range of ailments. The revitalization is done with the help of modern technology, the heating system and the diversity of massage types. FOCUS III is also provided with the function of kneading the legs and relaxing massage of the feet, a beneficial reflexology program.

FOCUS III - the equivalent of dedicated massage

The automatic shoulder detection system, along with the footrest with a retractable function, achieves optimal stretching so the perfectly personalized massage can begin. Scanning your dimensions guarantees the optimal effects of the massage.

A massage chairs that welcomes you warmly

The moments of relaxation spent with FOCUS III are complemented by heat therapy. Recommended on cold winter days or simply when you feel comfortable with it, the warmth of our massage chair envelops you in a surprising way also thanks to a unique ensemble, called a massage shawl with graphene heating. You can place the shawl in different positions, depending on the type of the massage. This accessory effectively relieves symptoms such as scapulothoracic periarthritis and cough, eliminating cold and moisture from the shoulder joints, and soothing pain around the abdomen, stimulating blood circulation.

FOCUS III will fix you up in minutes

Daily activities, and especially modern professions that involve hours of standing up, are the challenges we have to face very often. FOCUS III is equipped with a calf kneading function that can improve muscle stiffness or tension. The massage is extremely invigorating and it also comes with an adjustable intensity.

Massage with air cushions for maximum relaxation

The innovative technology of FOCUS III now offers you a pneumatic massage of your feet, arms and palms, performed by 24 air cushions. By alternating moments of pressure and depressurization, the nerve centers and blood circulation are activated, and the sensation at the end of the massage is incredible and invigorating. Pneumatic intensity adjustment can be set to three levels.

15 massage programs, 15 different experiences

➤ **Recovery**

Deeply massages shiatsu points and effectively relieves pain.

➤ **Relaxation**

A new experience with every use

Every day, every moment of the day comes with a new mood. What if we could choose exactly what suits us best each time? FOCUS III invites you to discover six different massage methods! You can always choose from Shiatsu, Kneading, Knocking, Tapping, Knead & Knock and Classic Massage.

A smart massage chair that constantly monitors your health

On the front side of the right armrest in the area designated for your fingers, there is a system for scanning and detecting the state of health, respectively the heart rate, the oxygenation of the blood and a fatigue index. FOCUS III will always be able to tell you how you feel.

A massage chair that listens to you

The comfort of the FOCUS III is complemented by the voice control option. All you have to do is sit in the massage chair and a smart voice recognition function can start the desired massage program immediately after hearing your command. In addition, the available audio system gives you a set of 3D, digital audio speakers built into the massage chair. The Bluetooth feature of your smart device can be used to play wireless music. The right armrest there's also a USB charging slot. A color LCD remote control is also available.
